

Process Training Unit

Coriolis Mass Flow Fundamentals

Course Information

This Coriolis flow course starts by providing maintenance and engineering personnel with a basic understanding of the Coriolis principle. This basic portion focuses on concepts applicable to virtually any manufacturer's equipment. Following this introduction, we proceed with in-depth training on density and concentration measurements. This class is a combination of classroom and hands-on training in our PTU.

Topics Covered

- Flow Basics and Advanced Flow Metering
- Differential Pressure Flow Measurement
- Coriolis Flow Meters
- Electromagnetic Flow Meters
- Vortex Flow Meters
- Ultrasonic Flow Meters

Endress+Hauser 

Event Details

April 21 - 22, 2026

3838 Clay Ave SW
Grand Rapids, MI 49548

8:00am - 5:00pm
Lunch provided

Cost:

\$1,500 per person
